

Oonair adds **bcnHighgrowth to its shareholding by securing a €2M equity investment for expansion**

Barcelona, Spain - May 19th 2010.

bcnHighgrowth (BCNHG) and Oonair, the platform that enables enterprises to Capture, Transfer and Publish live and recorded media content from a mobile to the web or any content management platform - have recently completed a €2M (two million euros) equity investment into Oonair.

The equity investment will enable Oonair to further develop its technology and will strengthen commercial development at a national and international levels - preparing Oonair to become the ultimate mobile content generation tool for Media Groups, engineering companies, emergency service and multinationals requiring the oversight of remote projects while reducing costs.

Oonair's CEO, Rafael Terradas says: "Oonair is a young company comprised of strongly committed individuals who combine passion for technology development and business strategy knowledge. In a short period of time, Oonair has grown to become the solution chosen by leading media groups in different markets".

According to Mr. Terradas "Oonair's technology enables best quality live mobile streaming regardless of file size and most importantly, anywhere and at any times".
